

CDS[®] Hydrodynamic Separation

Effectively treat stormwater runoff while reducing the number of structures on your site.

Why go through all this?

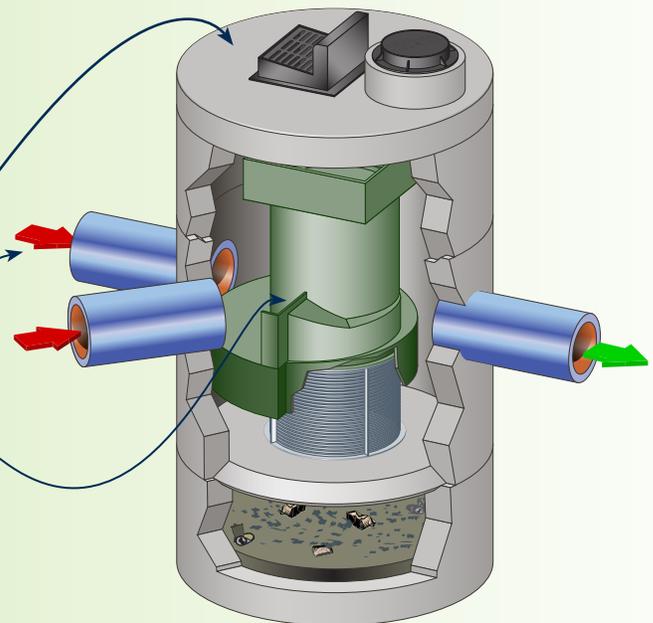

Traditional Stormwater Treatment Site Design

When one system can do it all!

SAVE TIME, SPACE, AND MONEY WITH CDS[®]

- Grate inlet option available
- Accepts multiple inlets at a variety of angles
- Internal bypass weir
- Advanced hydrodynamic separator
 - Captures and retains 100% of floatables and neutrally buoyant debris 2.4mm or larger
 - Patented indirect screening capability keeps screen from clogging
 - Retention of all captured pollutants, even at high flows
 - Performance verified by NJCAT and WA Ecology

CDS[®] Multiple Inlet System
