

Military Market Readiness

Who is Contech?

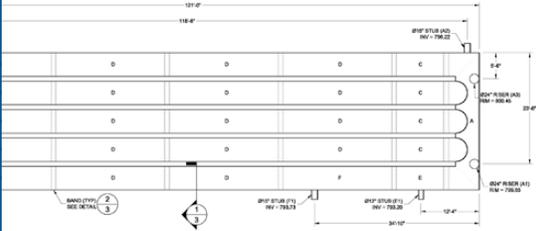

Contech® Engineered Solutions is the leading site solution provider of bridge, drainage, erosion control, soil stabilization and stormwater solutions in North America.

What Can Contech Do For You?

Let Contech's nationwide engineering group be an extension of your design team. A local Contech Project Consultant is available to work with you through the entire design process. From budgeting to engineered drawings, Contech provides comprehensive support with engineered solutions for all of your civil infrastructure needs.

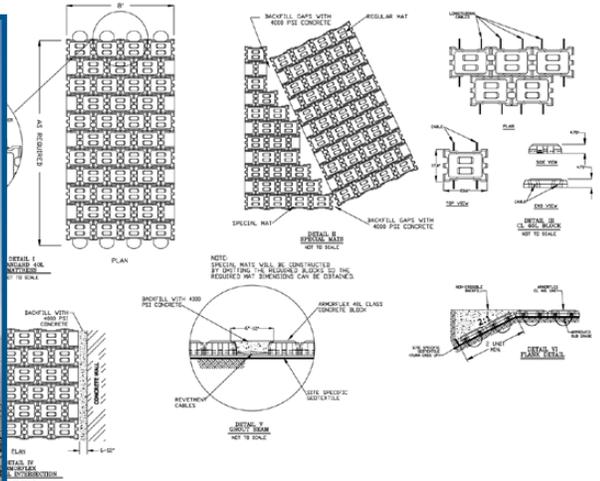

Pre-Engineered bridges include CON/SPAN® Bridge Systems, BEBO® Concrete Arch Systems, SUPER-SPAN®, Steadfast® Vehicular Structures, and Continental® Pedestrian Bridges.

Stormwater solutions include the Stormwater Management StormFilter® system, the CDS® and Vortechs® hydrodynamic separation systems, and detention/retention systems such as CMP systems, CON/SPAN® vaults, and ChamberMaxx™ and CON/STORM™ arch systems.

Drainage solutions include ULTRA FLO[®], Smooth Cor[™], HEL-COR[®], Contech Slotted Drain[™], DuroMaxx[™] and Reline Solutions included SPR[™] PE.

Erosion control and soil stabilization solutions include Geotextiles, Armortec[®] and Keystone[®] Retaining Wall Systems

Special Military Applications

Bin-Wall Blast Berms, MULTI-PLATE[®] Ammo Igloos and Keystone Jet Blast Deflection

Who Do We Work With?

Designers — DPW, NAVFAC, CES, A/E, Environmental and USACE.

Contractors — D/B, JOC, IDIQ, SABER, MATOC, SATOC, MACC and local subcontractors.
